The ETAP Nuclear Utility Conference provides a discussion platform for its member institutions and representatives where items related to ETAP software can be shared and discussed in relation to the nuclear power industry. The ETAP Nuclear Utility User Group is open to any and all client institutions of OTI licensed as nuclear users. All users within a nuclear client institution using ETAP to support the activities of a nuclear utility are encouraged to participate in the annual conference and its related activities. ETAP users with a nonnuclear license who are interested in nuclear activities can participate as an associate member.
